

Cybersecurity Awareness Training

© CMIT Boston Cambridge

EDUCATE. [WHAT IS IT?]

An interactive training session designed for your company. These sessions can be tailored to executives, specific departments (e.g., HR, legal, etc.) or for all employees.

SIMULATE. [WHY DO I NEED IT?]

Periodic cybersecurity training sessions including, in-person, web-based and simulated compromise-and-breach scenarios are the most effective methods to teach and reinforce good behaviors.

PREVENT. [CMIT PROTECTION]

CMIT customizes training sessions to your specific company's needs and employees. Sessions are interactive, allowing your employees to ask Q&A during the sessions.
