Cybersecurity Policies & Processes

© CMIT Boston Cambridge

ASSESS. [WHAT IS IT?]

On-boarding, off-boarding and acceptable use policies are key to providing guidelines for new and departing employees and protecting the company and its employees.

FORMULATE. [WHY DO I NEED IT?]

Policies and process provide clear boundaries and rules for employee and company conduct, which helps demonstrate a company's control over its security and compliance.

EXECUTE. [CMIT PROTECTION]

CMIT has developed highly tailored processes for various tasks and compliance purposes. CMIT can review existing policies and/or develop new ones tailored to your environment.
